Measures to Implement Management that is Conscious of Cost of Capital and Share Price

Analysis of current circumstances

- **Improving PBR is an important management issue**

- To improve the current status of ROE (return on equity) below 8% and PBR (price-to-book ratio) below 1x, we are taking measures to implement management that is conscious of costs of capital and share price in conjunction with **setting a 2030 Vision target.**
- With the aim of achieving higher capital efficiency that exceeds the current cost of capital of approximately 7% (CAPM: Capital Asset Pricing Model), we will **prioritize efficiency and increase both the utilization and unit price of our rental assets. Our immediate goal is to quickly recover to an ROE of 8% or higher, and then in the mid to long term, raise that to 10% or higher.** At the same time, we will meet our shareholders' expectations by continuing our **stable dividend policy and a total payout ratio 50% or higher.**
- In addition, with the aim of elevating its position in the global industry from its current ranking of eighth to become one of the global top five through initiatives such as the continued investment in rental assets and human capital, and domestic and global M&A, the Company will strive to achieve sustained growth.

Initiatives

- 1、 **Increasing profitability**
- 2、 **Strengthening the policy for shareholder returns**
- 3、 **Continuing to carry out proactive IR activities**

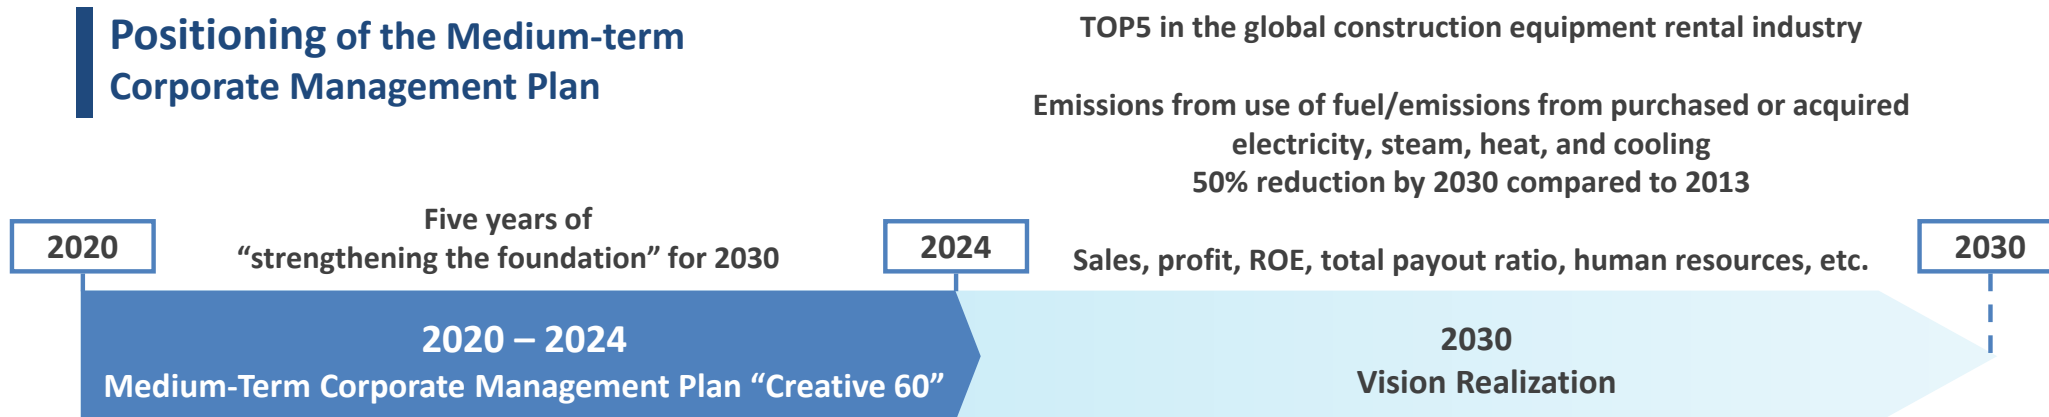

Measures

Specific measures for increasing profitability

- 1、 **Improving the utilization rate of rental assets**
- 2、 **Implementing consolidation, closing or merging of business offices**
- 3、 **Adjustment of rental unit prices to appropriate prices**

2030 Vision

Positioning of the Medium-term Corporate Management Plan

We will improve corporate value by further strengthen the resilience of our business by developing our business with an awareness of sustainability and by actively responding to various changes in the social environment under the three priority measures.

2030 Vision

- We strive to balance operating cash flow and investment cash flow to maintain financial soundness
- For growth investment opportunities such as M&A, we will use financial leverage while monitoring financial soundness
